"The quality of your choices determines the quality of your life, and I help my clients choose well."

Award-winning interior designer Janie Hirsch has been designing classic interiors for over 24 years. Janie, a Louisiana native and the daughter of an architect and watercolor artist, landed on her feet in Atlanta following a stint in New York City working for a lighting designer. She has designed homes from throughout the Southeast and has received numerous ASID Georgia Design Excellence Awards.

As a registered interior designer, Janie's approach to design is collaborative and reflects her clients' personalities and lifestyles. She heads one of the Southeast's most versatile and sought-after full-service design firms due to her personalized attention on every project. The signature of J. Hirsch Interior Design includes an eclectic combination of classic furnishings and antiques with a strong connection to architectural elements. She also uses color as a neutral, along with texture and pattern to bring a quiet sophistication to clients' homes. Her style is tailored and timeless. The end result is a design that is inheritable and ages gracefully.
