KITCHEN

Hirsch's take on the classic cooking space is "English eclectic" in feeling but offers plenty of color-focused updates. A rich taupe, white and gray palette extends from the gray linen-covered ivory Hickory Chair counter stools to the custom-finished crosscut island created with Kingdom Woodworks. The island offers plenty of surface area for gatherings, while a built-in wine rack indulges oenophilic interests—perhaps for future wine tastings featuring sheep's milk cheeses from Serenbe's own Many Fold Farms. Hirsch, who also selected all of the finishes for the Serenbe Designer Showhouse, hand-drew the handsome metal grillwork to coordinate with the trio of lanterns.
